

TIME LIMIT FOR COMPLETING DEGREES

When Los Angeles Pacific University awards a degree, it is certifying that the student's knowledge and professional skills are reasonably up-to-date as of the time of graduation. Accordingly, to earn a degree from LAPU, students must complete all required coursework within 10 years (fulfilling graduation requirements from the catalog to which they are currently assigned, which must be one of the 10 most recent annual catalogs).

This edition is the 2023-2024 catalog. Students must complete the catalog requirements of this catalog by no later than Summer Semester 2033.
